

## 14 CFR Part 91 - What You Need to Know

All pleasure flying and many commercial endeavors including flight instruction, banner towing, skydiving, etc operate under 14 CFR Part 91. Additionally, aircraft maintenance technicians and pilots performing 'owner/operator maintenance' must be knowledgeable about Part 91 of the regulations. The "General Operating and Flight Rules" contain hundreds of subparts and paragraphs that have a wide applicability to every flying operation. Attend this informative briefing presented by featured speaker Byron Danforth, a FAA Safety Team Representative and refresh your regulatory knowledge!

**Directions:** Rt 302 to downtown Fryeburg. At the traffic light turn eastbound on Rt 5. Go approx 3 miles to airport on right.

### A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
